Payment: Manual via upgrade form → afrividstudio@gmail.com | Future: Flutterwave

7. Social Media & Presence

Platform	Handle/URL
Website	afrivid.studio
Facebook	facebook.com/profile.php?id=61590870207039
Instagram	@afrividstudio
TikTok	@afrividstudio
YouTube	@AfrividStudio
Twitter/X	@afrividstudio
Wikidata	Q140194899
GitHub	github.com/rayiecho/afrivid

8. SEO & Discovery

- Google Search Console: Submitted
- Sitemap: afrivid.studio/sitemap.xml (11 pages)
- Schema: JSON-LD with Wikidata Q140194899
- OG Images: afrivid.studio/images/logo.png
- PWA: Installable as app (manifest.json + sw.js)
- robots.txt: Configured

9. Monthly Costs at 100 Free Users

Service	Monthly Cost
GitHub Pages	\$0
Firebase	\$0
Cloudflare	\$0
Google TTS	\$0
Claude API	~\$0.10
Domain (afrivid.studio)	\$1.67
TOTAL	~\$2/month

Break-even: 9 Pro users × \$5 = \$45/month covers all costs at 1,000 users

10. AfriBrain Vision

Every video processed by AfriVid contributes to AfriBrain — Africa's first AI model:

- Transcriptions saved to afribrain_data Firestore collection
- Target: 1,000,000 African language words by December 2026
- Languages: Swahili, Yoruba, Hausa, Amharic, French, Portuguese
- Goal: Train Africa's first indigenous multilingual AI model
- All data collected with explicit user consent
- Dataset will be open-sourced for African universities

11. Roadmap

Phase	Timeline	Milestone
Phase 1 — AfriVid Studio	Jun 2026	Launched ■
Phase 2 — Server Processing	Jul-Aug 2026	Long video support
Phase 3 — AfriBrain Data	Jun-Dec 2026	1M African words
Phase 4 — AfriBrain Training	Jul-Dec 2027	AfriBrain v1.0
Phase 5 — AfriBrain API	Jan 2028	Public API launch

12. Known Issues (Launch)

- Design studio text editing needs improvement

- Mobile experience on create.html needs polish
 - Safari (iPhone) limited support for some features
 - Photo editor flags/watermark features need polish
 - Video processing limited to ~5 minutes (Phase 2 will fix)
-

13. Contact & Support
